**NOTE:** If there is anything listed above that you will not need, please write N/A in the box beside it. If you want the DJ to select a song for you, please write "DJ's choice". If you need ideas for anything or need a small sample list of songs emailed to you, please contact the DJ. The DJ does not email his full complete library of songs because it is overwhelming. It is recommended to perform google or online searches to gather ideas on "First Dance" and other special wedding music selections. Lastly, please complete this "REQUIRED" form and submit back to the DJ no later than 2 weeks prior to the event so the DJ can prepare accordingly. The DJ will not accept any other forms, emails, calls or texts with song selections and will only play your desired songs according to this Song Selection Sheet. (The last statement does not apply for regular reception dance/party music). The DJ may allow for changes in writing up to 1 day prior to the event. You may also include links to youtube, spotify or itunes playlists if you have one. In the event a song is played incorrectly during the ceremony or reception, the DJ will do everything possible to make any quick adjustments possible but please note, the DJ comes prepared with pre-downloaded song choices selected by you via this form and have pre-programmed them into a playlist ready to go. The DJ may not have access "on the fly" to make an alternate selection. In many instances, songs have been performed & recorded by various artists and versions and it is possible the DJ could have downloaded & played a version that is not the one you desire. If you feel this could be the case with one of your song selections, please consult the DJ at least 1 week prior to the event to discuss further.
